

ELSEVIER

Earth-Science Reviews 47 (1999) 269

Contents Volume 47, 1999

Review papers

| | |
|--|----|
| Karelian shungite—an indication of 2.0-Ga-old metamorphosed oil-shale and generation of petroleum: geology, lithology and geochemistry V.A. Melezhik, A.E. Fallick, M.M. Filippov and O. Larsen | 1 |
| Paleosols in clastic sedimentary rocks: their geologic applications M.J. Kraus | 41 |
| The origin of life J.H. McClendon | 71 |
| Volcanic geomorphology—an overview J.-C. Thouret | 95 |

Earth Reflections

| | |
|--|-----|
| The dawn of a new era A.J. van Loon | 133 |
|--|-----|

| <i>Book Reviews</i> | 139 |
|-------------------------------|-----|

| | |
|----------------------------|-----|
| <i>Editorial</i> | 149 |
|----------------------------|-----|

Research Papers

| | |
|---|-----|
| Measurements and interpretations of tilt-strain gauges in seismically active areas M. Zadro and C. Braitenberg | 151 |
| Definition of subsurface stratigraphy, structure and rock properties from 3-D seismic data B.S. Hart | 189 |
| Medical geochemistry of tropical environments C.B. Dissanayake and R. Chandrajith | 219 |

| | |
